Section 3. Composition/Information on Ingredients

Ingredients	CAS No.	Percent
There are no components contained in this material at concentrations above 1% that are considered hazardous under 29CFR1910.1200.		

Section 4. First Aid Measures

Skin Contact: Immediately wash skin with soap and water. Wash contaminated clothing before reuse.
Eye Contact: Immediately flush eyes with plenty of water. Seek medical attention if irritation persists.
Inhalation: Immediately remove to fresh air. If not breathing give artificial respiration. If breathing is

difficult, give oxygen. Please note: Symptoms may be delayed; prompt medical attention may be required. Call a physician.

Ingestion: Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician.

Section 5. Firefighting Measures

Fire and Explosion Hazard: Not considered flammable nor combustible, but will burn if involved in a fire.

Fire Extinguishing Media: Foam, Dry Chemical, CO₂

Unsuitable Extinguishing Media: None

Hazardous Combustion Products: Burning can produce hydrogen fluoride, toxic and corrosive gas.

Special Fire Fighting Information: Evacuate personnel to a safe area. Wear a self-contained breathing apparatus. Wear full protective equipment.

Section 6. Accidental Release Measures

Personal Precautions: Wash contaminated skin thoroughly. Evacuate personnel to safe areas. Ensure adequate ventilation.

Protective Equipment: Wear appropriate personal protective equipment.

Environmental Precautions: Avoid release to the environment.

Methods and Materials for Containment and Cleaning up: Contain the spill or leak. Soak up with sawdust, sand, oil dry or other absorbent material. Properly dispose of contaminated product, absorbents and rinsates.

Section 7. Handling and Storage

Handling Conditions: Avoid contact with eyes and prolonged or repeated skin contact.
Agitate contents of container before using

Storage Conditions: Store in a well-ventilated place at temperatures below 120°F. Keep container tightly closed. Keep from freezing. Keep away from heat, sparks and flame.
*** Agitate contents of container before using ***

Section 8. Exposure Control/Personal Protection

Exposure Limits: No Information Available

Appropriate engineering controls: Trifluoropropionaldehyde (TFPA) vapors may evolve from product used in open systems at temperature above 150°C (300°F). TFPA vapors present highly potential health hazard, so that adequate ventilation and protective equipment should be provided. This product can generate formaldehyde at approximately 150°C (300°F) and above in the presence of air. Formaldehyde is a skin and respiratory sensitizer, eye and throat irritant, acute toxicant and potential cancer hazard. So use adequate ventilation or wear protective equipment such as gloves, goggles or protective clothing when this product is heated at approximately 150°C (300°F) and above in the presence of air.

Personal protective equipment:

Respiratory Protection: NIOSH approved respirator as needed

Hand Protection: Rubber or plastic gloves should be worn

Eye Protection: Safety glasses/goggles should be worn

Skin and Body Protection: Rubber apron

Other Protective Equipment: Eye wash equipment and safety shower.

Hygiene Measures: Wash hands thoroughly after use.
