## AdvaBond® 8232

AdvaBond® 8232 is a solvent free chlorinated polyolefin adhesion promoter that will impart excellent adhesion to various low surface energy substrates when added to adhesives, sealants and coatings formulations.

### CHARACTERISTICS

- Superior adhesion to low surface energy substrates, especially to PP, TPO or PP/EPDM.
- Solvent-free, 100% active—ideal for high solids adhesives and sealants formulations
- Zero VOC

### APPLICATION

AdvaBond® 8232 is designed to be used as an additive to high solids adhesives or sealants systems such as silyl modified polymers.

- Add product in the formulation at 1-10% on a weight basis.
- Addition level can range depending on cost and performance requirements.
- Make sure AdvaBond® 8232 is compatible with the rest of the components.

### PACKAGING

AdvaBond® 8232 is available in 8 oz. samples and drum quantities.
