Section 3. Composition/Information on Ingredients

Ingredients	CAS No.	Percent
Vinyltrimethoxysilane	2768-02-7	>99
Methanol (Impurity)	67-56-1	< 0.1
This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.		

Section 4. First Aid Measures

Skin Contact: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with

water/shower. Wash contaminated clothing before re-use.

Eye Contact: Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses if

present and easy to do so. Seek medical attention immediately.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not

breathing give artificial respiration. If breathing is difficult, give oxygen. Please note: Symptoms may be delayed; prompt medical attention may be required. Call a physician.

Ingestion: Rinse mouth. Do not induce vomiting. Never give anything by mouth to an unconscious

person. Call a physician.

Section 5. Firefighting Measures

Specific Hazards in Case of Fire: Flammable liquid and vapor. By heating and fire, harmful vapors/gases

may be formed. The vapor is heavier than air. Vapors or gases may ignite

at distant ignition sources and flash back.

Fire Extinguishing Media: Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable Extinguishing Media: Water.

Special Protective Equipment and Firefi

Precaution for Firefighters:

Firefighters must use standard protective equipment including flame retardant coat, helmet, gloves, rubber boots, and self-contained breathing apparatus. In case of fire and/or explosion do not breathe fumes. Move

containers from fire area if you can do so without risk. Water runoff can cause environmental damage.

Unusual Fire & Explosion Hazards: No information available.

Section 6. Accidental Release Measures

Personal Precautions: Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all

sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form concentrations. Vapours can accumulate in low areas.

Protective Equipment: Wear appropriate personal protective equipment (e.g. safety goggles,

protective gloves, dust respirators)

Environmental Precautions: Prevent entry into waterways, sewer, basements or confined areas. Avoid

release to the environment.

Methods and Materials for Turn off ignition sources. Use only non-sparking tools.

Containment and Cleaning up: Large Spills: Stop the flow of material, if this is without risk. Dike the spilled

material, where this is possible. Cover with plastic sheet to prevent

spreading. Use a non-combustible material like vermiculite, sand or earth to

soak up the product and place into a container for later disposal. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean

surface thoroughly to remove residual contamination.

Section 7. Handling and Storage

Handling Conditions: Do not handle, store or open near an open flame, sources of heat or sources of

ignition. Protect material from direct sunlight. When using do not smoke. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion proof equipment. Do not breathe mist or vapor. Wear appropriate personal protective equipment. Avoid release to the environment. Do not empty into

drains. **Agitate contents of container before using**

Storage Conditions: Keep away from heat, sparks and open flame. Keep container tightly closed.

Store in a well-ventilated place. Keep out of the reach of children. Store in a cool, dry place out of direct sunlight. Keep in original container.*** Agitate

contents of container before using ***
