Section 6. Accidental Release Measures

Personal Precautions: Avoid contact with skin or eyes. Avoid breathing vapours or mist. Ensure adequate ventilation. To keep out non-participants.

Protective Equipment: Use personal protective equipment (e.g. protective gloves, gas respirators, safety glasses).

Environmental Precautions: Discharge into the environment must be avoided. Do not let product enter drain.

Methods and Materials for Containment and Cleaning up: If there is no danger, stop the leak. Collect liquid in an appropriate container or absorb with an inert material (e.g. sand earth vermiculite), and place in a chemical waste container. If the product leaks a lot, enclosed by embankments to prevent runoff, leading to a safe place to recover. Remove all sources of ignition.

Section 7. Handling and Storage

Handling Conditions: Provide appropriate local exhaust or ventilation at working area. Use personal protective equipment (e.g. safety glasses, gas respirators, protective gloves). Wash hands thoroughly after handling. Avoid release to the environment. Avoid contact with skin and eyes or clothing. Avoid inhalation of vapour or mist. Avoid contact with strong oxidizing materials and strong acids.
*****Agitate contents of container before using*****

Storage Conditions: Store in a well-ventilated area above 32°F (>0°C) preferably to 40°F – 104°F (4°C – 40°C). Store in a dry, cool place. Keep container tightly closed when not in use.
***** WARNING - PROTECT FROM FREEZING*****
 In the cold months, a freeze indicator is attached to this shipment (one indicator per pallet). If the bulb on the indicator is not clear, this shipment was exposed to temperatures below 32°F (0°C) that may have caused the material to freeze. If product is exposed, product quality testing should be performed before accepting the shipment. Perishable if frozen.
