Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
Ingestion:	Call a poison control center or doctor immediately for treatment advice. Drink 1 to 2 glasses of water to dilute. Do not give anything to an unconscious person. Do not induce vomiting

unless told to by a poison control center or doctor.

Section 5. Firefighting Measure	25
Specific Hazards in Case of Fire:	Mixture is not flammable. The product is stable at normal handling and storage conditions.
Fire Extinguishing Media: Unsuitable Extinguishing Media:	Material can be extinguished with carbon dioxide (CO2), dry chemical, foam, water spray. Not applicable
Special Protective Equipment and Precaution for Firefighters:	In the event of fire, wear self-contained breathing apparatus. Move containers promptly out of fire zone. If removal is impossible, cool containers with water spray. Remain upwind. Avoid breathing smoke. Contain run-off.
Unusual Fire & Explosion Hazards:	Closed containers may rupture via pressure build-up when exposed to fire or extreme heat. During a fire, irritating and highly toxic gases and/or fumes may be generated during combustion or decomposition.

Personal Precautions:	Material is a notential consistiver. If expected to material during clean up
Personal Precautions.	Material is a potential sensitizer. If exposed to material during clean-up
	operations, immediately remove all contaminated clothing and wash
	exposed skin areas with soap and water. See SECTION 4, First
	Aid Measures, for further information. Do not take clothing home to be
	laundered. Appropriate protective equipment must be worn when handling a spill of this material.
Protective Equipment:	Use personal protective equipment (e.g. protective gloves, gas respirators, safety glasses).
Environmental Precautions:	Discharge into the environment must be avoided. Do not let product enter drain.
Methods and Materials for Containment and Cleaning up:	If there is no danger, stop the leak. Collect liquid in an appropriate container or absorb with an inert material (e.g. sand earth vermiculite), and place in a chemical waste container. If the product leaks a lot, enclosed by
	embankments to prevent runoff, leading to a safe place to recover. Remove all sources of ignition.

Section 6. Accidental Release Measures

Section 7	. Handling and	l Storage
-----------	----------------	-----------

Handling Conditions: Storage Conditions:	Material is a potential sensitizer. See SECTION 8, Exposure Controls/Personal Protection, prior to handling. Vapors can be evolved when material is heated during processing operations. See SECTION 8, Exposure Controls/Personal Protection, for types of ventilation required. Wash after handling and shower at end of work period. **Agitate contents of container before using** Store in a well-ventilated place. Keep container tightly closed. Store locked-up.
	Store out of direct sunlight. Store at 41°F – 122°F (5°C – 50°C). ** PROTECT FROM FREEZING ** If the product freezes, allow to thaw then mix thoroughly. Product quality testing should be performed before using the product.
