

API-CL250

Product Overview

API-CL250 is a dispersant system that is specifically designed to aid in prevention of soap scum, soil, hard water and other buildup in hard surfaces such as showers, bathrooms, kitchens and windows. API-CL250 can be formulated to finished protectants/cleaners with excellent performance without the need of any additional surfactants or scrubbing.

Physical Properties

APPEARANCE:	Clear, Pale Yellow Liquid
PH:	3.0
DENSITY (25C)	1.03 g/ml

Applications

- Cleans and prevents soap scum, soil and hard water buildup on multi-surfaces and applications
- Can be formulated in shower, toilet bowl, bathtub and outdoor window cleaners
- Imparts a hydrophilic and self cleaning effect
- Can be used in acidic, neutral and alkaline systems
- Imparts wetting and sheeting on surfaces applied
- Provides anti-fog properties to glass surfaces
- Durable and spot free drying

Packaging

Available in 8 oz samples and 441 lb drums.

Application Methods

API-CL250 can be used as an additive or stand alone cleaner by formulating into a finished cleaner without any solvents by simply diluting 0.5—5 wt% in water. For ideal performance adjust loading level depending on your application, cost and performance.
